#### **DETAILED ACTION**

## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 15-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Walsh.

Walsh shows a seat (12) comprising a holding device (14), a base (22) fixed on a support (24), and a device having two flaps (52) mounted at the end of the base of the seat. A mechanism (56) is provided for actuating the movement of the flaps and having members acting on levers (34) fixed to the flaps. The mechanism comprises an actuation lever. The applicant's invention is directed to a seat having a pair of leg restraints. The environment ("in an amusement park installation") as stated in the preamble of claim 15, line 1, is considered to be functional recitation and does not carry any patentable weight.

Claims 15-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Walton.

Walton shows a seat (12) comprising a holding device (12), a base (22) fixed on a support (24), and a device having two flaps (52) mounted at the end of the base of the seat. A mechanism (56) is provided for actuating the movement of the flaps and having

Art Unit: 3636

members acting on levers (34) fixed to the flaps. The mechanism comprises an actuation lever. The environment ("in an amusement park installation") as stated in the preamble of claim 15, line 1, is considered to be functional recitation and does not carry any patentable weight.

### Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

The factual inquiries set forth in *Graham* v. *John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

- 1. Determining the scope and contents of the prior art.
- 2. Ascertaining the differences between the prior art and the claims at issue.
- 3. Resolving the level of ordinary skill in the pertinent art.
- Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 15-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Alfred et al in view of Walton.

Alfred et al show a seat (12) comprising a base (22) fixed on a support (24) and a device having two flaps (52) mounted at the end of the base of the seat. A mechanism (56) is provided for actuating the movement of the flaps and having members acting on levers (34) fixed to the flaps. The mechanism comprises an actuation lever. The

Art Unit: 3636

environment ("in an amusement park installation") as stated in the preamble of claim 15, line 1, is considered to be functional recitation and does not carry any patentable weight. However, Alfred et al do not disclose a holding device. Walton shows a seat (12) comprising a holding device (12), a base (22) fixed on a support (24) and a device having two flaps (52) mounted at the end of the base of the seat. It would have been obvious to one of ordinary skill in the art at the time the invention was to construct Walton's seat with a holding device as taught by Alfred et al in order to provide a backrest to support the user's back.

#### Allowable Subject Matter

Claims 18-29 are allowed.

# Response to Arguments

Applicant's arguments with respect to claims 15-17 have been considered but are most in view of the new ground(s) of rejection.

#### Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Application/Control Number: 10/021,918 Page 5

Art Unit: 3636

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen A. Vu whose telephone number is 571-272-6862. The examiner can normally be reached on M-F from 8:30 am to 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter M. Cuomo can be reached on 571-272-6856. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
